Borisbi Zhangurazov,
Chairman of the Governing Board of the
«National Export and Investment Agency
«KAZNEX INVEST» JSC

Dear Ladies and Gentlemen!

We are pleased to present VIII edition of the «Export Products of Kazakhstan 2015» Directory, enriched with information about operating exporters and «newbies» that are planning to occupy niche in foreign markets with products «Made in Kazakhstan».

This edition contains information about **721** Kazakhstani companies, including **579 producers** that manufacture more than 830 types of export-oriented goods, and **142 service providers**.

As of today, out of 579 goods-producing companies, 405 have already been exporting domestic products to the markets of **30 countries of the world**, while the rest of them are only getting experience and planning to enter foreign markets. Out of 142 service-producing companies, **78** are exporting geologic exploration, IT, logistics and tourist services.

Talking objectively, the number of active exporters in Kazakhstan is much higher, however, the Directory was formed based on voluntary consent of the companies to place information in our book, and we sincerely thank them for it.

As the national agency that supports domestic exporters, we believe that in today's severe marketing competition, Kazakhstan should actively develop the export of processed goods and contribute to the promotion of domestic goods and services.

Despite the general stereotypes that modern Kazakhstan is known in the international market as a supplier of raw materials and mineral resources, Kazakhstani companies have real capabilities to produce and export high quality and environmentally friendly products with inherent «national» character.

We hope that «Export products of Kazakhstan 2015» Directory will become a useful source in search of information about Kazakhstani producers and exporters and help to establish reliable relations with them.

We wish You every success in your work!

Borisbi Zhangurazov,
Chairman of the Governing Board of the
«National Export and Investment Agency
«KAZNEX INVEST» JSC

MINING EQUIPMENT AND COMPONENTS

«Almaty Heavy Machinery Plant» JSC

Products:
Coking equipment:
armour, frame coke
oven; machine side doors
complete with frames;
coke side doors complete
with frames; frame of the
machine side, the coke
side of the frame;
frame sealing and others.
Rolling and metallurgical:
ladle, wire feeder,
trays for metal casting;
transportation, loading,
feeding and working
roller conveyors with
individual and group
drive broadband and
high-grade hot rolling
mills, slabbing and
blooming mills and
others.
Equipment for sinter
plants: closures coke
weight funnel; shutters

electrified the top
section of coke breeze.
Wire-drawing and pipe
equipment: mills (lines)
for single and multiple
drawing of steel wire
with a diameter of 30
mm to 0.8 mm; mills for
single and multiple wire
drawing of non-ferrous
metals and their alloys
with section 0,5-755
mmI to 0,2-660 mmI
«without» and «with»
built-in installation of a
continuous annealing and
others.

Mining machinery and
equipment for general
industrial use

«Kantau Transformer Works» JSC

Products:

Transformer equipment
(dry cast resin
transformers TSL
capacity from 50 to
3150kVA voltage of 6 and
10 kV).
«Nomex» winding dry
supply transformer TSN
and TSNZ type capacity
from 25 to 100kVA voltage
of 6 and 10 kV. Lowering
transformers for
their own needs TSZI, TSZ
1,6-100kVA.
Transformers for heat
treatment of concrete
supplied to the
substation TMT0
KTPT0-80 type.
Power transformers for
electric submersible oil
TMPN type.
Current transformers
with cast insulation

Charyn Canyon. Charyn National Park.

A large, ornate, circular metal sculpture, possibly a traditional Indian 'Chakras' or 'Chakras' wheel, is the central focus. It features intricate cutouts and is surrounded by a bed of white and red flowers. The sculpture is set against a background of green trees and a building. The word 'SERVICES' is written in white capital letters on the right side of the image, with a decorative yellow and black pattern to its right. The bottom of the image features a red and yellow geometric pattern.

SERVICES

AVIATION OPERATIONS

«Airport «Sary-Arka» JSC

Services:
Air carriage

Year of foundation:
1996

Contact information:
Airport, Botakara village,
Bukhar-Zhyrau district,
Karaganda region,
Kazakhstan, 100000
Tel.: +7 (7212) 42-85-42

GEOLOGIC EXPLORATION SERVICES

«AS GEO» LLP

Services:
Geological exploration of
common minerals

Types of service
activities:

- Exploration
- Drilling
- Geotechnical
- Consulting, drafting and
work programs for
carrying out exploration
of common minerals
- Reporting on the
submission of TRC
(SCR) RK
- Drafting of mining
leases, field-development
program of common
commercial minerals

Year of foundation:
2002

Contact information:
27, Tashenov Str., office
210, Astana, Kazakhstan,
010005,
Tel./fax: +7 (7172) 37-40-14

«Asem Tas N» LLP

Services:
Exploration work on the
solid minerals (geological
and mineragenous
mapping, prospecting,
exploration).

Research work of
geological content

Types of service
activities:

- Exploration: design,
documentation, testing,
mapper count mineral
reserves
- Underground
- Geophysical surveys,
field and camera
(magnetic survey
and electromagnetics)
- Map generation
different scales
- Special support the
work of geological
- Research: geological
content. Used equipment
and technology

Year of foundation:
1989

Contact information:
162 Zh, Shevchenko Str.,
Almaty, Kazakhstan,
050008
Tel./fax:

375-60-65; 375-63-65
E-mail: asemtasn@mail.ru

«Atyraugidrogeolo- gia» LLP

Services:
Exploration work on the
solid minerals, water
and oil.
Drilling of wells for solid
minerals, water and oil.
Prospecting, exploration,
mining

Types of service activities:

- Drilling of research, development, testing
- Geological
- Hydrogeological
- Geotechnical
- Consulting and monitoring
- Repair and mechanical
- Production and sale of drinking water
- Laboratory studies on water
- Special support of geological works
- Other activities associated with exploration

Year of foundation:
1993

«Azimut Energy Services» JSC

Services:

Wide range of services in the field of exploration of oil, gas and solid minerals

Types of service activities:

- 2D/3D seismic services, modular system and end-to end
- Develop designs of 3D seismic projects
- Supervisors services for safety and quality control
- Development of technical projects and assessment of the environmental impact assessment (EIA) for seismic projects
- Environmental monitoring, drilling and blasting operations in carrying out seismic surveys

Year of foundation:
1996

Export destinations:

CIS, India, Yemen, Turkey, Mauritania

Contact information:

1, microdistrict Atyrau-1,
Almaty, Kazakhstan,
050019

«TSENTRGEOLANALIT» LLP

Services:

Analytical, engineering
geological, technological,
mineralogical,
petrographic work for
geological organizations.
Design, manufacture and
approval of standard
samples of minerals

Types of service activities:

- Complete analyses of minerals (rocks, silicate, carbonate, sulphate, phosphate, fluoride ores of ferrous, non-ferrous, rare and noble metals and their products, minerals)
- Hydro chemical analyses of groundwater, surface water, mineral, drinking and waste water, brine and complete physical and chemical analysis of curative mud
- Studies of oil and oil products, coal and gas
- Testing of non-metallic materials, the study of the physical and

mechanical properties of rocks and geotechnical studies

- Study of technological properties and material composition of the ores and their wash ability
- Design and manufacture of standard samples of ores, rocks and their products
- Work in the field of ecological design and valuation, complex geological and environmental, 211 hydrogeological studies to assess the natural anomalies, technological pollution and sanitary status of surface environments

Year of foundation:
1994

Certificates:
ST RK ISO/MK 17025-2007

Export destinations:
Kyrgyzstan, Russia, Poland, Uzbekistan, Germany

«Volkvgeologia» JSC

Services:

Study of uranium-bearing prospects.
Prospecting and exploration of stratum-infiltration uranium deposits.
Drilling and construction

technology wells.

Drilling wells operational exploration, production and repair of mobile offshore drilling units. Manufacturing and repair mining equipment and vehicles.
Analytical work on the determination of radioactive and associated elements in rocks and groundwater

Types of service activities:

- Search, exploration and extraction of minerals (ore, common and other minerals)
- Industrial development fields
- Construction and commissioning of nuclear facilities (exploration, prospecting, coring well, hydrogeological, injection well and extraction well, observation wells, including field experiments in-situ leaching of uranium, the study aquifers uranium deposits, radiohydrolitchemical research)
- Radiation monitoring areas, facilities, employment, materials, vehicles
- Determination of radionuclides in the materials, facilities, environment, measurement of the concentration of radon and other radioactive gases
- Gamma-shooting and other radiometric study

areas (including radio-ecological monitoring, the radiological assessment of minerals containing radioactive substances)

- Environmental design, standardization work in the field of environmental impact assessment
- Chemical-analytical studies
- Laboratory technology research

Year of foundation:
1948

«Zhaykgidrogeologia» LLP

Services:
Prospecting, exploration, mining and water

Types of service activities:

- Prospecting and exploration of groundwater for water supply for cities, villages, industrial and agricultural enterprises
- Search and exploration of mineral water for the needs of health centres, dispensaries, hospitals, bottling of mineral water
- Hydro-geological,

geotechnical and geoenvironmental survey of various sizes with the preparation of conditioned cards

- Geotechnical investigations for industrial and civil construction, laboratory quality control of construction materials used
- Prospecting and exploration of building materials and nonmetallic minerals
- Drafting of mining leases and development projects of common minerals
- The study of the environment, control and protection of ground water and soil from depletion and pollution, preparation of environmental forecasts and recommendations on environmental measures
